

TCM Forklift Parts

TCM Forklift Part - In the global industry of material handling, lift trucks play a major role for transporting industrial goods. First innovated as industrial vehicles during the 1930s in the U.S., forklifts gained popularity after World War II during the 1940s. Becoming a reliable and efficient means to material handling solutions, the practicality and need of these machines spread internationally.

Initially founded as Toyo Carrier Manufacturing Company Limited, in the year 1949, the business was later renamed Toyo Umpanki Co. previous to becoming known as the TCM Corporation. Started by Mr. N. Niwa manufactured Japan's very first forklift. Over the years, TCM lift trucks have become a worldwide leader in forklift manufacturing and have built a solid reputation in the business. TCM started building lift truck manufacturing locations outside of Japan during the 1980s and is currently engaged in lift truck manufacturer at three foreign factories in Europe, China and the United States.

With more than fifty years of accumulated expertise and technology, TCM has been proudly making many models of industrial trucks, making their models known all around the globe. With an energetic and strong staff, TCM has been able to continually work towards becoming a future leading material handling business.
