

## Concrete Hoppers

Concrete Hoppers - The self-dumping hopper accessory can automatically start to both unload and release as soon as the bumper release touches the side of a dumpster. Once unloading is completed, the hopper could go back to original upright and locked position. This particular piece of equipment is likewise offered with a cable which enables operation from the seat of the lift truck in order to have the alternative of manually unloading the hopper. There is a locking chain provided in order to secure the hopper to the fork truck. This product is constructed with reliable and consistent robotic welds for maximum strength. The forklift dumping hopper also has a blue powder coat finish in order to maintain durability.
